

Product data sheet

1990-10 EAN-No. 4000896**218271**

Application:

Soft soldering, paint removal, welding, shrink wrapping, shaping and much more

- Basic design - excellent price-quality ratio
- Power: **1600 watts**
- 2 air volume ranges: **350 / 500 l/min (two-stage switch)**
- High-quality ceramic heater, optimal device cooling and powerful motor ensure a long service life
- Sucked in air is not blown through the motor – preventing dirt from contaminating the motor
- Optimal, well balanced ergonomics
- Can be placed upright (readiness storage)
- Including heating element protection
- Electronics: Flicker-compliant
- Net weight: 0.68 kg
- Temperature range: 350°C – 500°C
