

Product data sheet

4972-2

EAN-No. 4000896215393

Application:

Secure retention and movement of heavy components, e.g. when disassembling and assembling brake callipers and wheel hubs on commercial vehicles

- Allows you to work safely, without straining your back, in tight spaces in the wheel arch on trucks, buses, trailers and trailer axles
- **Swivel bearing**
- Use with brake calliper holder 4972-1
- **For disassembly and assembly of brake callipers** in trucks, buses, trailers and trailer axles that are installed in a diagonal "clockwise position between 8 o'clock and 5 o'clock"
- Easy to set the screws, even in awkward positions
- Connect swivel bearing to brake calliper holder and place under the brake calliper with e.g. lift truck
- Makes fitting screws easier
- Takes the various installation situations of the brake callipers into consideration
- Easy to use
- One-hand operation possible via spindle
- Second person not required
- Setting range min./max.: 716 – 911 mm
- Made in Germany
