

# Product data sheet

## 4954-2

EAN-No. 4000896229628

- **Portable** (can be used everywhere) – connecting to battery replace stationary installation  
Operating voltage 12 V
- **Boiling point tester** – higher testing accuracy in comparison to other testing methods
- **Time savings** - fluid can remain in the fluid reservoir on most vehicles
- **Safe and environmentally friendly**, since there is no loss of fluid
- Approved by vehicle manufacturers
- Also meets the requirements of TÜV Austria
- For **DOT 3 · DOT 4 · DOT 4+ · DOT 5 · DOT 5+ brake fluid**
- **Easy application** – one push button
- No brake fluid selection necessary
- Warning when operating voltage is too low
- Cable length: 2.2 m
- **Test in ° C and ° F** – temperature range: 320° C / 608° F  
Accuracy  $\pm 10^{\circ}$  C
- **Quick diagnosis** – measuring duration: approx. 30 seconds
- Test container, syringe and operating instructions included in delivery
- Plastic box
